VESSELS

GERSTENBERGER®

These exquisite bowls are inspired by the light and shadow casting folds of fine art. They were created bearing in mind the creative exchange in random forms. By utilizing an artistic interference, the curious impressions left by the laws of nature are preserved. The process used to achieve these effects is the Japanese Urushi technique. This technique is very time consuming and obtains its fixating effect only when certain atmospheric conditions are met. The resulting unique works are witnesses to the respective debate between the things that surround us and their inherent values.
